## How is Master Vite Different?

In today's modern world of stress, pollution and processed foods, added nutritional support is needed more than ever. While a multiple vitamin and mineral formula serves to replace missing nutrients and enhance energy levels in some, others need additional support for achieving optimal energy levels. Master Vite is the solution for those who need more than a typical once a day multiple vitamin supplement.

Master Vite is formulated to be an antioxidant-packed, stress-fighting and energy enhancing multiple vitamin, mineral and herbal formula. In addition to providing comprehensive nutritional support from a spectrum of vitamins and minerals, this formula also provides high potency antioxidant protection, from a wide range of sources. It features antioxidants such as Vitamins A, C and E as well as herbal antioxidants like Ginkgo Biloba. With this antioxidant-rich profile, Master Vite offers superior protection to assist in disease prevention.

Master Vite also contains energizing therapeutic levels of nutrients such as the full B Complex for memory, concentration and staying focused and on task. It also contains the herbs Eleuthrococcus and Gotu Kola for immediate energy and stamina. The addition of supergreen foods such as Spirulina, Alfalfa and Barley Grass provides nourishment and support for the entire immune system, otherwise known as your body's "resistance". A strong immune system means you'll catch illnesses less often and furthermore if you do get sick, you'll recover faster.

This versatile, high potency 3 a day multiple vitamin, mineral and herbal supplement is formulated for those desiring additional nutritional support beyond a once a day vitamin and mineral profile. Our body functions at its best when we eat 3 times a day. It makes common as well as nutritional sense that we take a multiple vitamin, mineral and herbal supplement 3 times a day. Remember a "supplement" is designed to supplement your life.
